Concerns were raised by the readers regarding inaccuracies found in the experimental data and too many irrelevant references in this article. Following the concerns raised regarding this article, the Editorial Board conducted a thorough investigation and confirmed that the issues are indeed present. As a result, the Editorial Board has lost confidence in the validity of the overall findings and has decided to retract this article in accordance with TSP’s retraction policy (<https://www.techscience.com/ndetail/authors>).

This retraction was approved by the Editor-in-Chief of the journal Computers, Materials & Continua.

The authors were informed of the retraction decision; however, they have not provided any response regarding the retraction.
